

**You have to wait
is true. And
completely wrong.**

The three-line fix. Swipe →

THE PROBLEM

NO PLAN

**Ordered to wait. No
time. No owner.**

That is the real insult — and it ends up in reviews.

LINE 1 · ACKNOWLEDGE

1

**I'm sorry for the delay
— thank you for your
patience.**

Warmth first. It costs nothing and changes everything after it.

2

Your room should be ready in about twenty minutes.

Never promise a time you cannot defend.

3

**If it's not ready by
then, come straight to
me.**

The next update point has a name and a face:
yours. I'll check personally.

REMEMBER THIS

“

**Time plus ownership
turns a wait into a plan.**
